Bienvenue sur cerealocales.fablim.org

La plateforme d'échanges et de partage des connaissances autour des céréales locales,
à l'usage des citoyens, des professionnels, des agents de développement et des chercheurs

Description:

Cerealocales.org is an open-source platform for sharing knowledge about local cereals, designed for professionals, development workers, researchers and members of the public.

Key features:

- Its aim is to centralise data from various participatory research projects conducted with INRAE on local cereals, as well as to promote local knowledge and expertise.

User guidance:

Guidance on how to use the databases is found on the website:

<https://cerealocales.fablim.org/?ConsulterRessource>

Similar apps/tools:

INCREASE; SeedLinked; ProSpecieRara Sortenfinder
